

VSR PRIME-An Online Video Player

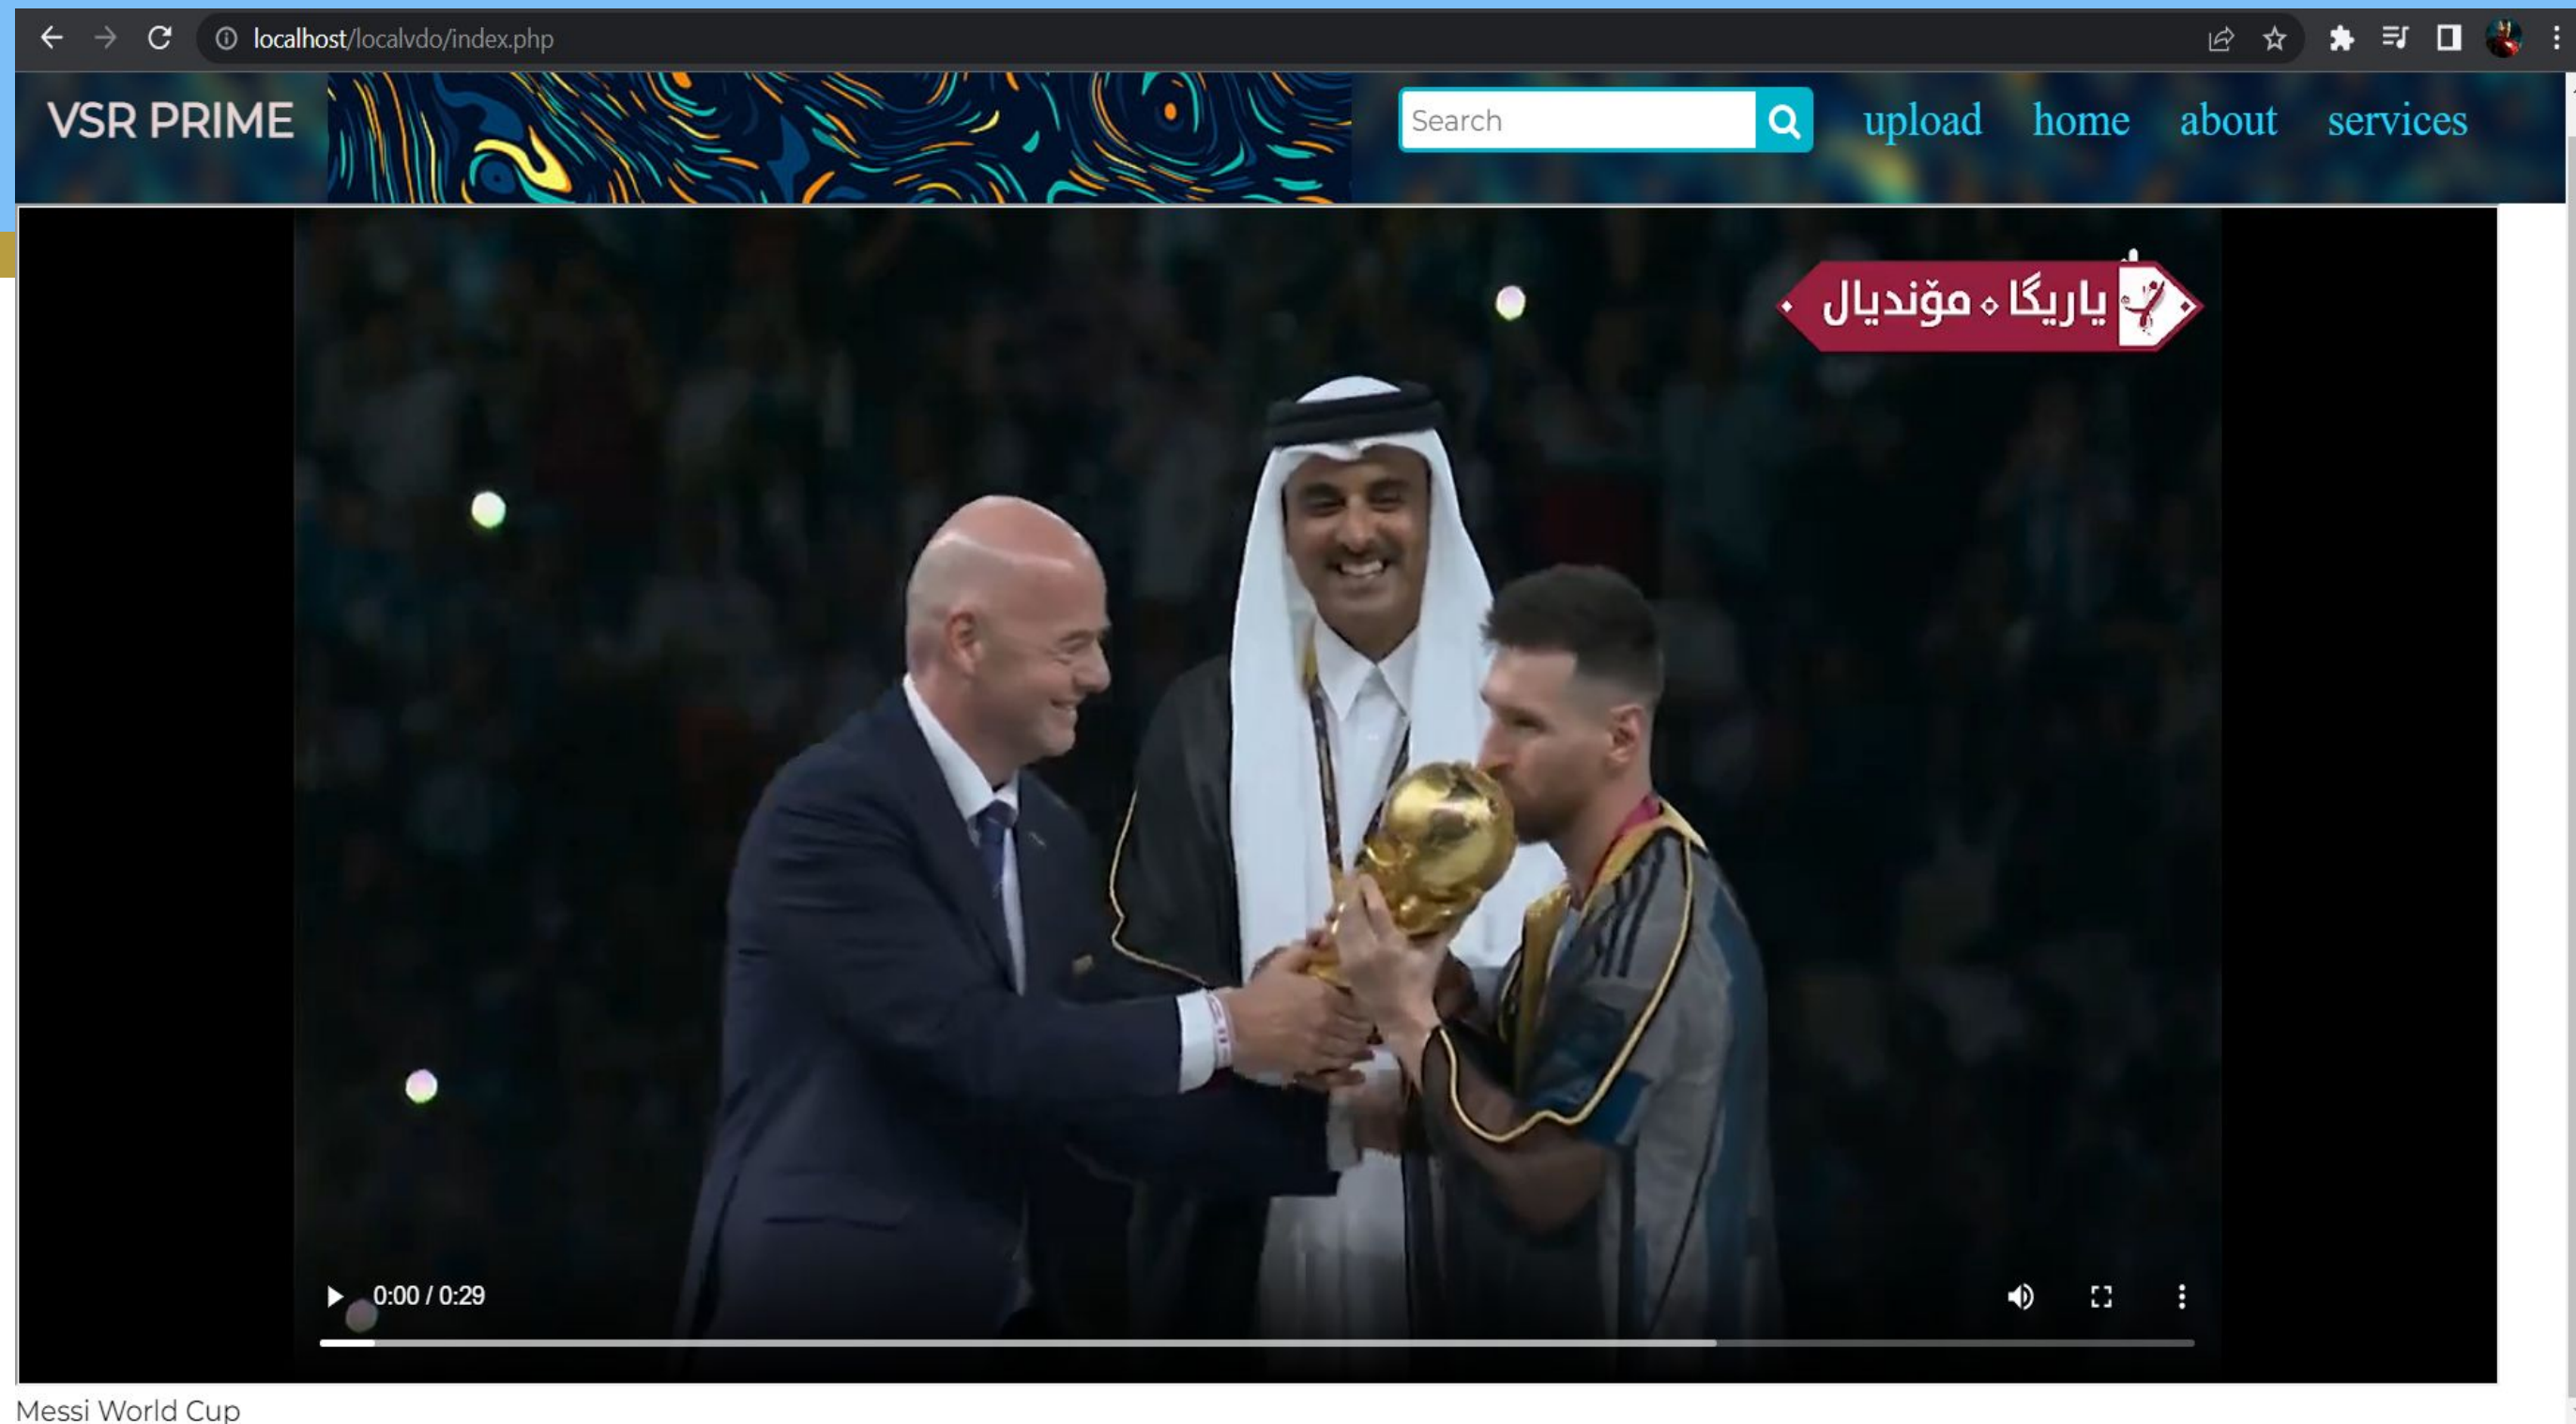

ABSTRACT

The website has a homepage that contains some video previews of the videos present in the website. The website then has a page where one can search for a video and if the requested video is listed in database then it is played on the page. There is also an upload page where one can upload a video with a name and description and the same will be listed in the database.

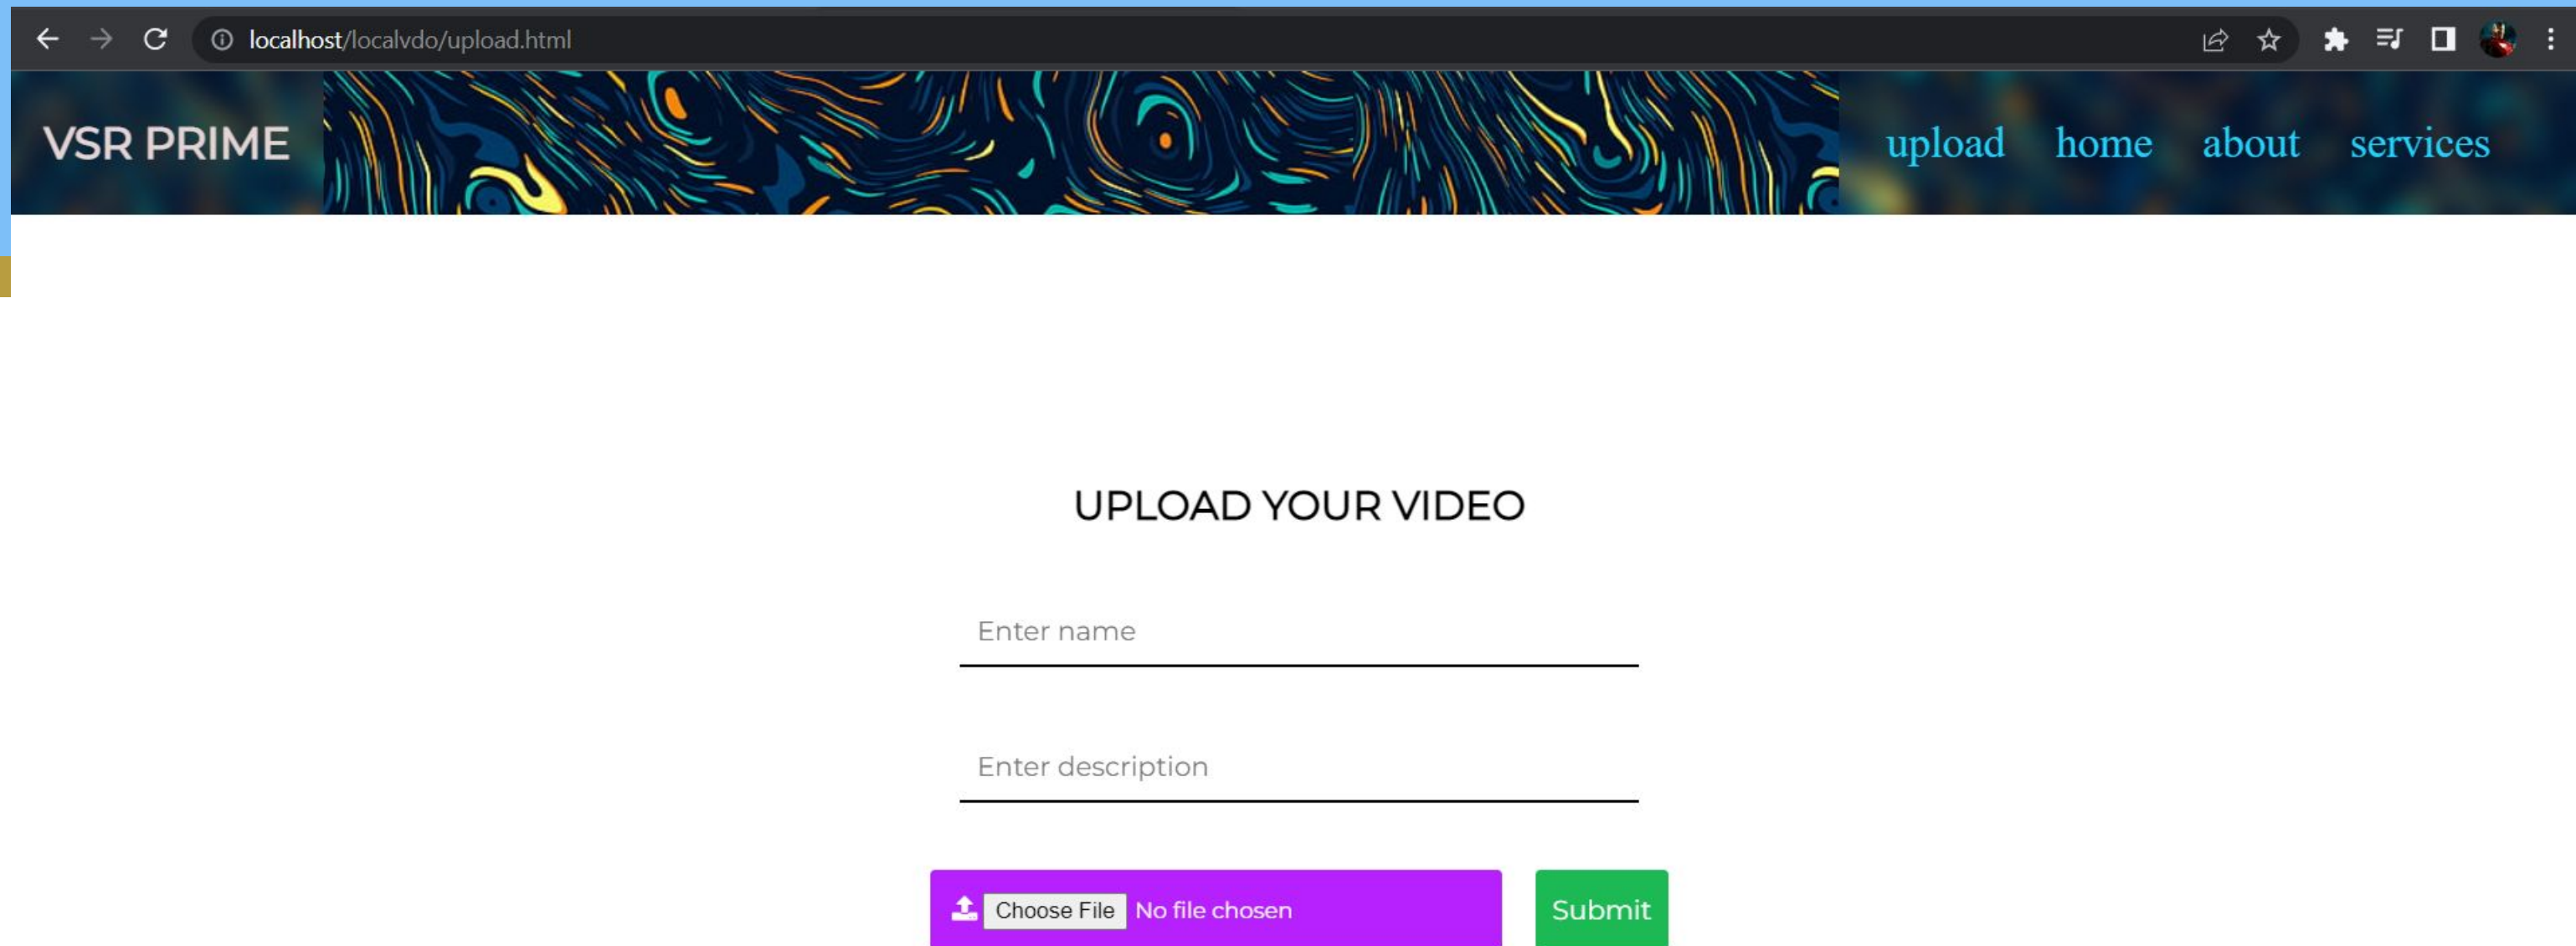

INTRODUCTION

VSR Prime is an online video player that displays videos that are already available in the database along with its name and description. A video player is a hardware or software that allows for the playback of video. In the past, most video players were hardware based, like the BetaMax pictured above, but today, most video players are software based, running on phones, browsers, or computers to play back video content. Also the user can upload the videos that are not available in the database to make it available for viewing in the future.

OUTPUT

OUTPUT

The screenshot shows a web browser window with the address bar displaying 'localhost/localvdo/upload.html'. The browser's toolbar includes back, forward, and refresh buttons, as well as icons for sharing, bookmarks, extensions, and a user profile. The website's header features a dark blue background with a colorful, abstract, swirling pattern. On the left, the text 'VSR PRIME' is displayed in white. On the right, there are four navigation links: 'upload', 'home', 'about', and 'services', all in a light blue color. The main content area is white and contains the heading 'UPLOAD YOUR VIDEO' in black. Below this heading are two text input fields: 'Enter name' and 'Enter description'. At the bottom, there is a file upload section with a purple button labeled 'Choose File' and 'No file chosen', and a green button labeled 'Submit'.

OUTPUT

The screenshot displays the phpMyAdmin web interface. The browser address bar shows the URL: `localhost/phpmyadmin/index.php?route=/sql&pos=0&db=video&table=video`. The interface includes a left sidebar with a database tree view showing 'information_schema', 'mysql', 'performance_schema', 'phpmyadmin', 'test', and 'video'. The 'video' database is selected, and a 'New' button is visible. The main panel shows the 'Table: video' view. A toolbar at the top contains buttons for Browse, Structure, SQL, Search, Insert, Export, Import, Privileges, Operations, Tracking, and Triggers. The SQL tab is active, displaying the query: `SELECT * FROM `video``. A status bar indicates 'Showing rows 0 - 3 (4 total, Query took 0.0003 seconds.)'. Below the query, there are options for Profiling, Show all, Number of rows (set to 25), Filter rows (Search this table), and Sort by key (None). The 'Extra options' section is expanded, showing a table of results. The table has columns: id, video_name, video_desc, and video_link. It contains four rows of data. Below the table, there are checkboxes for 'Check all' and 'With selected:', followed by buttons for Edit, Copy, Delete, and Export. At the bottom, there is a 'Query results operations' section with buttons for Print, Copy to clipboard, Export, Display chart, and Create view. A 'Bookmark this SQL query' section is also present, with a label input field and a checkbox 'Let every user access this bookmark'.

Server: 127.0.0.1 » Database: video » Table: video

Showing rows 0 - 3 (4 total, Query took 0.0003 seconds.)

```
SELECT * FROM `video`
```

☐ Profiling [Edit inline] [Edit] [Explain SQL] [Create PHP code] [Refresh]

☐ Show all | Number of rows: 25 | Filter rows: Search this table | Sort by key: None

Extra options

			id	video_name	video_desc	video_link	
<input type="checkbox"/>	Edit	Copy	Delete	40	Mass Boy	Mass Boy	videos/theetayi.mp4
<input type="checkbox"/>	Edit	Copy	Delete	41	Cat	Mylo cat	videos/cat.mp4
<input type="checkbox"/>	Edit	Copy	Delete	42	Cheetah	Running Cheetah	videos/Cheetah.mp4
<input type="checkbox"/>	Edit	Copy	Delete	43	Tokyo	The Ecstasy of Tokyo	videos/tokyo.mp4

☐ Check all | With selected: Edit Copy Delete Export

☐ Show all | Number of rows: 25 | Filter rows: Search this table | Sort by key: None

Query results operations

Print Copy to clipboard Export Display chart Create view

Bookmark this SQL query

Label: ☐ Let every user access this bookmark
